

PT 9.1.1™

_____ #

_____ GALLONS

PT 9.1.1 is a liquid product with a wide array of microorganisms and a variety of potential uses.

DERIVED FROM: Compost extract, plant and mined mineral extracts

SUGGESTED USES:

Compost inoculant
Manure treatment
Cleaning up biodegradable compounds

RECOMMENDED RATES

Compost Piles: Spray within first week of starting piles. Use 25 gallons PT 9.1.1 per 4' high x 100' long pile.

Pit Treatment: Per 100,000-gallon manure pit, use 25 gallons PT 9.1.1, 50 gallons molasses, 50# brewers yeast, and 4-5 gallons hydrogen peroxide.

Bio-Remediation: Consult your sales representative for site-specific application rates and instructions.

Other Uses: Consult your sales representative.

Do not mix with fertilizers until day of application.

PT 9.1.1 should be stored in clean containers that are vented.

PT 9.1.1 meets National Organic Program requirements for organic production.

PT 9.1.1 contains NO Genetically Modified Organisms.

This product is intended for use according to an approved organic system plan.

It is each certified organic grower's responsibility to get approval from his/her certifying agency before using this product. Because of differences among the various certifying agencies, and differences between NOP/EU/JAS/COR ingredient lists, AgriEnergy Resources cannot guarantee that our products will be allowed by your certifier on your farm.

CAUTION: KEEP OUT OF REACH OF CHILDREN. This product is not intended for human consumption. Avoid contact with eyes and open wounds. Rinse contacted areas with water. If swallowed, drink water and consult a physician. Wash hands after use.
